SUMMARY

Creative and user-centered **UI/UX designer** with a B. Tech in Computer Science, accompanied by real-world experience in crafting digital products for web and mobile platforms by making the interactions easy and accessible. Proficient in **Figma, wireframing, prototyping, and accessibility-focused design**. Fine at working within cross-functional groups and teams to convert business goals into user-friendly solutions.

WORK EXPERIENCE

Digitali360-Marketing Agency, UI UX Designer

August 2025 – present | Hyderabad, India

- Created **user-focused wireframes, interactive prototypes, and high-fidelity mockups** using **Figma** for **web and mobile applications**.
- Closely collaborated with **developers, product managers, and marketing teams** to deliver **design solutions** aligned with **client requirements** and **business objectives**.
- Improved **responsiveness** and **accessibility** through optimized **design elements** and refined **user flows**.
- Conducted **usability testing** and **UX research** to validate **design decisions** and enhance overall **user experience**.
- Managed **multiple client projects** across industries, delivering **brand-aligned, aesthetically appealing, and conversion-focused designs**.

Tools & Skills: Figma, UX Research, Wireframing, Prototyping, UI Design, User Flows, Accessibility Standards

PROJECTS

Alanati Pindivantalu 📍, Website Design and Mobile Responsive Design

- Designed a complete e-commerce website using **Figma** for **Alanati Pindivantalu**, a brand offering authentic Telugu sweets and snacks.
- Created detailed **wireframes, high-fidelity mockups, and responsive design layouts** tailored for product browsing, bulk orders, and gifting options.
- Designed user flows and navigation for multiple product categories including traditional sweets, festive gift boxes, and corporate combo packs.
- Ensured seamless user experience across desktop and mobile views, aligned with brand identity and accessibility best practices.
- Collaborated with stakeholders to refine UX strategy for **bulk ordering** and **custom gift box selections**.

Tools: Figma, UI/UX Design, User Flow Mapping, E-Commerce UX, Responsive Design

Mahavir Skoda 📍, Website Redesign

- Redesigned the entire **Mahavir Skoda** dealership website to improve user **experience, accessibility, and modernize** the visual design.
- Created detailed **wireframes, high-fidelity mockups, and interactive prototypes** using Figma.
- Focused on intuitive **navigation, responsive layouts**, and enhancing user engagement across devices.
- Collaborated with developers to ensure seamless handoff from design to development.

Tools: Figma, User Flow Mapping, UX Research, UX Design, Real Estate UX, UI Prototyping

Sansai Groups, Website Redesign

- Redesigned the entire **Sansai Groups** dealership website to improve user **experience, accessibility, and modernize** the visual design.
- Created detailed **wireframes, high-fidelity mockups, and interactive prototypes** using Figma.
- Focused on intuitive **navigation, responsive layouts**, and enhancing user engagement across devices.
- Collaborated with developers to ensure seamless handoff from design to development.

Tools: Figma, User Flow Mapping, UX Research, UX Design, Real Estate UX, UI Prototyping

Madroidix Technologies, Website Design

- Led the end-to-end UI/UX design of the complete Madroidix Technologies website, **structuring** clear information architecture and user journeys.
- Designed **responsive, high-fidelity interfaces in Figma**, ensuring seamless experience across desktop and mobile devices.
- Translated business requirements into a conversion-focused, brand-consistent digital experience while collaborating closely with developers for implementation.

Tools: Figma, Wireframing, Prototyping, Information Architecture, Responsive Design, UX Research

Proser, App and Website Design

- Designed a **real estate website** and **mobile application** where clients could post and explore multiple property listings.
- Developed separate user flows for “**Buy**” and “**Rent**” sections, including categories like **apartments**, **villas**, and **plots**.
- Integrated search and filter functionality for easy navigation by city, area, and property type.

Tools: Figma, User Flow Mapping, UX Research, UX Design, Real Estate UX, UI Prototyping

BotNBolt, Website Wirefame Design

- Designed a product website for a client selling DIY tools and equipment for **cars**, **home improvement**, **gardening**, **carpentry**, and **plumbing**.
- Created **user-friendly layouts** and navigation to support quick product browsing and smooth checkout flow.

Tools: Figma, UI Design, E-commerce UX, Wireframing.

Entrepreneur Analysis Information for Business Opportunity
