SUMMARY

UI/UX Designer and Frontend Developer with 2+ years of experience in user research, wireframing, prototyping, high-fidelity UI design, design systems, and responsive frontend development. Skilled in Figma, React, Three.js, and design-to-code workflows, with a track record of measurable UX outcomes including usability improvements, navigation optimization, and reduced user drop-off.

WORK EXPERIENCE

Deep Tech Foundry July 2026 – Present

Frontend Developer | UI/UX Designer

- Designed and developed responsive web and dashboard interfaces for the BotNBolt platform using AI-assisted development workflows.
- Led frontend implementation across three BotNBolt product areas - marketing website, dashboard, and an interactive 3D construction visualizer.
- Collaborated on translating design concepts into functional, responsive interfaces.
- Used AI development tools including ChatGPT, Gemini, Claude, and Antigravity to assist with frontend development, debugging, UI implementation, and iterative improvement.

Digitali360-Marketing Agency

October 2024 – June 2026

UI/UX Designer

Hyderabad

- Developed user flows, wireframes, and high-fidelity prototypes for 5+ web and mobile applications.
- Collaborated with a cross-functional team of 8+ to deliver business-aligned design solutions.
- Built a design system with 30+ reusable components, improving consistency across 3+ platforms.
- Conducted 10+ usability testing sessions with 6–8 participants each to validate design decisions.
- Managed 3+ concurrent client projects, delivering conversion-focused designs on schedule.

PROJECTS

BotNBolt 3D Visualizer

August 2026

Website Design and 3D Frontend Development

- Developed a 2D-to-3D construction visualizer that converts architectural sketches into interactive 3D models.
- Built interactive 3D visualization experiences using Three.js and React Three Fiber (R3F) for exploring and modifying construction designs.

BotNBolt Website

July 2026

Website Design and Frontend Development

- Designed and developed the BotNBolt marketing website with responsive and interactive interfaces.
- Translated UI/UX concepts into functional frontend components, focusing on usability and performance.

BotNBolt Dashboard

June 2026 – June 2026

UI/UX Designer

- Designed the BotNBolt dashboard interface for managing and visualizing application data.
- Developed reusable UI components and structured, responsive dashboard layouts.

Madroidix Technologies

December 2025 – December 2025

Website Design

- Developed 10+ pages with 25+ UI components and a clear 5-section information architecture.
- Decreased user drop-off by 35% through optimized navigation and content structure.
- Translated business requirements into responsive, high-fidelity interfaces across 3 screen sizes.
- Organized content into logical sections improving task completion and lessening confusion.

Sansai Groups

September 2025 – October 2025

Website Redesign

- Remodeled 12+ screens across 3 platforms resolving 6 key usability issues.
- Simplified user flows from 6 steps to 3 steps, improving user engagement across the redesigned flow.
- Restructured navigation improving content discoverability across 4 main content areas.
- Generated 3 interactive prototypes ensuring consistent experience across all devices.

Alanati Pindivantalu

May 2025 – June 2025

Website Design and Mobile Responsive Design

- Planned 14+ screens across 6 product categories with 4 structured user journeys.
- Decreased decision-making steps by 30% by identifying and fixing 5 key pain points.
- Provided responsive layouts across 3 breakpoints — desktop, tablet, and mobile.
- Crafted intuitive navigation flow streamlining product discovery and simplifying the ordering journey.

Mahavir Skoda

February 2025 – March 2025

Website Redesign

- Restructured 8 pages; identified 7 usability issues via heuristic evaluation.
- Lowered navigation click depth by 40% with a streamlined 3-level structure.
- Developed 15+ wireframes and high-fidelity prototypes for desktop and mobile.
- Modernized visual design improving accessibility and overall browsing experience.

Proppins

October 2024 – January 2025

App and Website Design

- Crafted 40+ screens with 2 distinct user flows — buying and renting journeys.
- Implemented 10 search and filter options simplifying property discovery by location and budget.
- Decreased browsing complexity by 40% by streamlining the property comparison experience.
- Established separate decision-making flows reducing cognitive load for first-time users.

INTERNSHIPS

UI/UX Intern

June 2024 – September 2024

Digitali360-Marketing Agency

Hyderabad

- Developed 10+ wireframes, prototypes, and high-fidelity UI screens per project across 4 client projects using Figma.
- Collaborated with a cross-functional team of 6+ developers and product managers to implement user-centered design solutions.
- Assisted in 5+ usability testing sessions incorporating feedback across 2 design iteration cycles per project.
- Optimized layouts, navigation, and accessibility across 3+ platforms, lowering key task completion time by 25%.

SKILLS

Design: Figma, Adobe XD, Sketch, Wireframing, Prototyping, User Flows, Design Systems, Usability Testing

Frontend Development: HTML, CSS, JavaScript, Responsive Web Design, React, Three.js, React Three Fiber (R3F)

Technical: Python, Django

AI-Assisted Development: ChatGPT, Google Gemini, Claude, Antigravity

EDUCATION

Amity University, Chhattisgarh, Raipur

September 2020 – June 2024

Bachelor's of Technology in Computer Science and Engineering

CGPA - 7.69/10

Sri Chaitanya Junior College, Bapatla

June 2018 – March 2020

Intermediate in MPC

CGPA - 9.6/10

Gems High School, Bapatla

June 2017 – April 2018

SSC (X)

GPA - 10/10

LANGUAGE PROFICIENCY

English (Professional)

Telugu (Native)

Hindi (Conversational)
